PROFESSIONAL SUMMARY

Motivated and detail-oriented MCA student with knowledge of Java, SQL, HTML, CSS, JavaScript, Artificial Intelligence, and basic Cyber Security concepts. Passionate about software development and emerging technologies with strong problem-solving, communication, and teamwork skills. Eager to apply technical knowledge and continuously grow in a professional environment.

EDUCATION

Technocrats Institute of Technology, RGPV University — Bhopal, Madhya Pradesh
Master of Computer Applications (MCA) — Pursuing
2025 – Present

Laxmi Narayan College, BRABU University Muzaffarpur — Bhagwanpur, Bihar
Bachelor of Computer Applications — 79.68%
2022 – 2025

Laxmi Narayan College, BSEB (State Board) Patna— Bhagwanpur, Vaishali, Bihar
Intermediate of Science — 69.2%
2020 – 2022

G.A High School, BSEB (State Board) Patna — Prataptand, Vaishali, Bihar
Bachelor of Computer Applications — 62.2%
2019 – 2020

TECHNICAL SKILLS

Programming Languages: Java, C, C++, Python, PHP.

Frontend / Backend: HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs, JWT Authentication, Responsive Web Design

AI / Integration: OpenAI API, Prompt Engineering, API Integration

Databases & Tools: MySQL, PL/SQL, MongoDB | Git, GitHub, VS Code, Postman, Cursor AI

Core Subjects: Object Oriented Programming language, Computer Network, Operating System, Data Structure and Algorithm

NON-TECHNICAL SKILLS

Strong communication and teamwork abilities with a positive and collaborative attitude.

Quick learner with good problem-solving and adaptability skills in dynamic environments.

Effective time management and organizational skills with a continuous learning mindset.

PROJECTS

1.**Quick Bite – Smart Food Ordering Platform (Ongoing Project)**

HTML · CSS · JavaScript · SQL · AI Integration_

- Developing a responsive food ordering web application inspired by Swiggy and Zomato.
- Working on frontend development, UI design, and database integration using HTML, CSS, JavaScript, and SQL.
- Integrated AI-powered recommendation engine to suggest dishes based on user order history and trending items.
- Implemented AI chatbot for real-time order tracking, query resolution, and personalized food suggestion

2.**Online Cloth Shopping Management System**

HTML · CSS · JavaScript · PHP · MySQL · AI

- Developed a web-based Cloth Management System for managing products and inventory records efficiently.
- Designed responsive interfaces and integrated MySQL database for data management.
- Added AI-based demand forecasting to predict stock requirements and reduce overstocking.

- Implemented AI smart search with autosuggestions and image-based cloth similarity matching for better user experience.

CERTIFICATIONS

1. **Internship in Java development at CodeAlpha** May 2026 – Present
2. **Artificial Intelligence Fundamentals & Prompt Engineering** Jan 2026 – 7 Days workshop
3. **Certificate of Technology of Job Simulation at Deloitte** June 2025 - March 2026
4. **TCS ION Career Edge- Young Professional Course** June 2025 - July 2025

ACHIEVEMENTS

CodeChef 100+ and LeetCode 100+
Student of the Year 2024
